DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.
3. The limitation of “the network-portion capabilities contained in the listing being updateable by the mobile node in response to unsuccessful attempts made by the mobile node to access packet data connectivity of the network portions,” as set forth in claims 1 and 15, is not supported by the disclosure. Appropriate correction is required.

4. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.
